What is Platinum status approval ?

Platinum approval is the highest and most prestigious level of approval granted by ACCA to learning providers. Platinum approvals are granted only to high-quality tuition providers that ACCA is confident to recommend to students. In working with Platinum approved tuition providers, ACCA aims to provide students with the tuition access and support they need to become ACCA members.

How is Platinum approval attained?

To be considered for Platinum approval, tuition providers must already be Gold approved and, in addition to the challenging performance targets that have been demonstrated to attain Gold approval, the tuition provider must also meet ACCA's Platinum performance targets and pass rate targets over two consecutive sets of results.

The performance targets are assessed in two parts:

Part 1 - Institution Management

Part 2 - ACCA course management and delivery

Academic English (English For Special Purpose)
